Model PM-20VA

Vertical Pole Mount for FP-PA20 Models

Installation/Operation

EN55103-1 E1-E5; EN55103-2 E1-E4

Typical Performance reflects product at publication time exclusive of EMC data, if any, supplied with product. Specifications are subject to change without notice.

The PM-20VA is designed to mount an RDL FP-PA20 style audio power amplifier and its associated power supply to a projector pole. This is a vertical mounting system designed to grip a standard 1-1/2" I.D. pole common to most projector mounts. An included bracket and screw set allows mounting to poles smaller than 1-1/2" and to square or rectangular projector mounts. Adequate vertical pole clearance must be available for mounting the PM-20VA. The bracket side plates are intended for the mounting of any RDL STICK-ON® or TX™ series module.

Capacity:	1 Desktop Power Supply, and 1 FP-PA20 style amplifier
Dimensions:	Height: 5.95" (15.11 cm), Depth: 5.06" (12.85 cm), Width: 3.52" (8.94 cm)
Material:	Combination of 18-gauge and 16-gauge steel
Finish:	RDL Black
