

# SourceFlex™ System

## Model SAS-RC8

### Room Control Station

## Installation/Operation

EN55103-1 E1-E5; EN55103-2 E1-E4  
Typical Performance reflects product at publication time exclusive of EMC data, if any, supplied with product. Specifications are subject to change without notice.

1. With unit powered from a SourceFlex controller, select an active audio source using the button below the display.
2. Ramp the listening volume up to maximum.
3. Set the GAIN control on the back of the SAS-RC8 for the maximum desired listening level from attached loudspeaker.

## TYPICAL PERFORMANCE

Line Output:	+4 dBu balanced (may be connected unbalanced)
Amplified Output:	2 W RMS into 8 $\Omega$ , adjustable (at normal system audio input operating level)
Mounting:	Mounts in RDL WB-2U wall box (US and international walls) or in standard US dual gang electrical box; use RDL MR-2 (available separately) to adapt to US 'square' electrical box
Finish:	RDL <i>ULTRASTYLE</i> design

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rule. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
