

MOTION MONITORING IN MULTIPLE ZONES

Aural and Visual Alerts at Security Station of Motion Detection By Zone

Description:

This application uses a motion sensor in each of four zones to trigger a corresponding RDL D-BZR Audio Alert Module at a security station. When triggered, the D-BZR provides a loud alert tone and visual LED indication to identify which zone actuated the alert. The D-BZR modules are mounted in a single DC-4G tabletop chassis.

During installation, the D-BZR may be set for the normal (loud) alert tone level, or for a reduced level for use in a confined area. It may also be set to alert only for the duration the motion sensor is active, or to latch continuously in the alert condition upon motion detection. When triggered in the latching mode, the D-BZR provides a continuous tone and LED indication until the front-panel reset button is pressed.

Parts List

Product	QTY
CP-4G	1
D-BZR	4
DC-4G	1

Recommended Pwr. Supplies

Product	QTY
PS-24AS 24 Vdc 500 mA	1

Line Color Key

Red	Line Level Audio Signal
Green	Loudspeaker Level
Purple	Control Signal
Yellow	Video
Blue	Mic Level Audio Signal
Light Green	Ground
Brown	Power
Orange	Miscellaneous
