

COMPOSITE VIDEO DISTRIBUTION

Distribute Video to Remote Location in House

EZ-VDA2R
Video Distribution Amplifier

Description:

This application demonstrates how to distribute a composite video signal to a remote location in a house. The EZ-VDA2R's bandwidth is > 400 MHz which ensures a high quality picture. Gain and equalization controls on the front panel allow adjustments for long cable runs. The EZ-VDA2R provides professional performance in a very compact package.

The EZ-VDA2R is shipped with a high efficiency power supply that connects to a locking dc power jack.
