

# CLASSROOM WITH INTEGRATED MIXER AMPLIFIER

Simple Constant Voltage Classroom Sound System

**HD-MA35UA**  
35 Watt Mixer Amplifier  
25, 70, 100 V, with Power Supply

**Description:**

The RDL HD-MA35UA 35 Watt Mixer Amplifier is a full-featured, four input mixer amplifier that can be readily desk mounted. The optional RDL HD-BP1 Back-Pack Rear Cover is designed to conceal and secure connections to the amplifier. When the system is not in use, the HD-MA35UA enters sleep mode and consumes less than 1 Watt to effectively save power and reduce operating costs. The amplifier automatically turns back on (active mode) whenever audio is detected at any input. This classroom makes use of computer and DVD audio sources as well as a microphone. The HD-MA35UA constant voltage (25 V, 70 V or 100 V) amplifier has sufficient power to enable proper loudspeaker distribution throughout the classroom allowing for even coverage and high intelligibility.

Parts List	
Product	QTY
HD-MA35UA	1
HD-BP1	1 (optional)

Recommended Pwr. Supplies	
Product	QTY
HD-MA35UA Power Supply	1, included
