

HOTEL BATHROOM AUDIO SYSTEM

Listen to TV Audio in Guest Room and Bathroom or Without Disturbing Partner

Description:

This installation enhances the hotel experience by allowing the TV audio to be heard clearly while getting ready for the day. The -TPA1A amplifier in the wall allows the guest to adjust the audio as loud as necessary, even with shower water running. Intelligibility of the TV audio is not dependent on the volume setting in the guest room.

If the TV is set to mute its internal speakers, TV audio is *only* heard in the bathroom. This is ideal if one guest wished to sleep while the other guest is spending time in the bathroom.

Parts List	
Product	QTY
CP-1S	1
DS-TPA1A	1
FP-TPS4A	1
