TX

HALF RACK

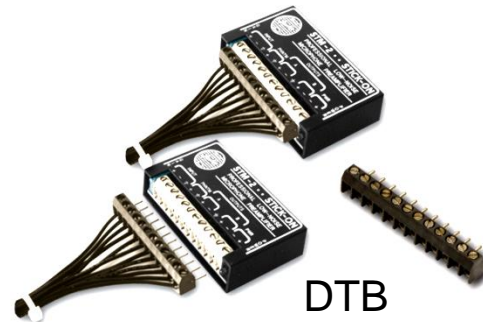

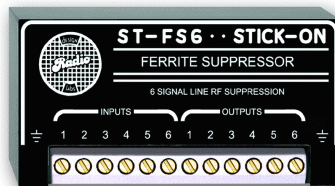

EZ SERIES

STICK-ON

- Most recognized small and unique RDL module format
- “Stick-On” any surface such as wall, podium or to other equipment
- Ships with Dual-Lock (industrial velcro)
- Mostly installed and adjusted without further handling
- Low power or passive (no power required) modules
- Optional detachable terminal block (DTB) for installation convenience

DTB

TX SERIES

- Rugged construction, compact size
- Maximum one rack unit (RU) high
- Two mounting screws on rear for TX mounting options
- Typically adjusted and set during installation
- Some are passive, others require power

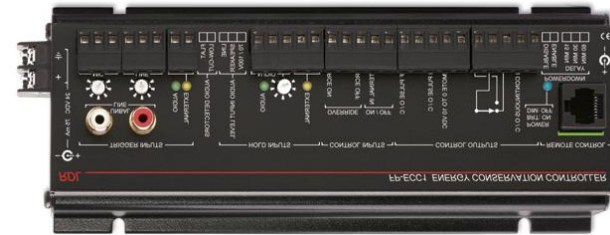

RACK UP

- 1/3 rack width, one standard rack unit (RU) high
- Typically rack mounted, wall, surface and DIN rail adaptors available
- Studio, broadcast and commercial products

FLAT-PAK

- Install on any flat surface, din rail or rack mount
- Two standard rack units (RU) high
- Length and depth vary
- Rugged all metal construction

EZ SERIES

- Connectorized products
- Easy for customer use and fast for installation
- Tabletop, direct surface mount or rack mounting
- One standard rack unit (RU) high, 1/3 or 1/6 rack width
- Light weight aluminum chassis, gold plated connectors
- Power supplies included

HD SERIES

- HD = Half rack width, Double rack unit (RU) height, two depths
- Newest form factor for mixer amplifiers and amplifiers
- Exceeds Energy Star standards

HALF RACK

- Half rack width, one rack unit (RU) high
- Studio and broadcast quality products

MISCELLANEOUS

- Decora sized products - conform to industry standard installation specifications
- APPFLEX Series - fit single gang wall mount boxes or RDL desktop chassis
- AV-PAK Series - product sizes vary, typically all aluminum construction
- AMS - Accessory Mounting System for custom configurable panels
- Various desktop chassis, surface mount boxes and cover plates available
