ACCESSORIES

Model FP-PSB1

Power Supply Mounting Bracket

APPLICATION: The FP-PSB1 mounts an RDL PS-24U2 power supply and it includes a provision to mount other modules. Any RDL FP-PA20 type audio power amplifier can mount directly to the FP-PSB1. RDL offers mounting brackets for mounting other modules in place of the FP-PA20.

The FP-PSB1 mounts to any flat surface or in an RDL Flat-Pak™ series rack mount panel (FP-RRR or FP-RRAH). The design of the FP-PSB1 allows it to slide into the Flat-Pak rack mount track. Mounting the FP-PA20 power amplifier (or other RDL modules using available adapter) together with the power supply conserves rack space and produces a convenient and professional installation.

FP-PSB1 Power Supply Bracket with PS-24U2 mounted

FP-PSB1 with PS-24U2 power supply and FP-PA20 audio amplifier mounted

FP-PSB1 Power Supply Bracket with PS-24U2 mounted

FP-PSB1 mounted in FP-RRR (with PS-24U2 supply and FP-PA20 amplifier)

Installation/Operation

EN55103-1 E1-E5; EN55103-2 E1-E4

Typical Performance reflects product at publication time exclusive of EMC data, if any, supplied with product. Specifications are subject to change without notice.

Mount the FP-PSB1 to any flat surface or slide it into the rails on an FP-RRA or FP-RRAH rack adapter. The FP-PSB1 may be used solely to mount an RDL PS-24U2 power supply without mounting a module to the FP-PSB1. STICK-ON[®] modules may be used with the FP-PSB1 by substituting an RDL FP-PBR4 (mounting frame for 4 STICK-ONS) for the FP-PA20 power amplifier module shown in the example above.
