PR2011-1

RDL TX™ Series Transformer Products are now Easier to Install

RDL transformer products are the industry standard for A/V professionals who require uncompromising quality and flexibility in a compact design. Five RDL transformer products have been redesigned, utilizing detachable terminal blocks in place of screw terminals, to make installation even easier:

TX-10B

Bridging Input Transformer

Ideal for adding transformer isolation to any line-level audio input

List Price \$43.49

TX-70A

25 V, 70 V, 100 V Speaker Level Input Interface - Unbalanced line output

Matches a 100, 70 or 25 volt speaker line to any unbalanced line-level audio input

List Price \$39.88

TX-1A

Adjustable Line Transformer

Provides transformer isolation between a balanced line and an unbalanced line input

List Price \$38.08

TX-J2

Unbalanced Input Transformer

Ideal for mixing two unbalanced audio signals to mono balanced

List Price \$63.47

TX-LM2

Line Level to Microphone Level Transformer

Matches balanced 600 ohm phone (or other line) into mic or line input

List Price \$39.88
