

**Description:**  
 The compact size of the RDL modules make installation of a monitor speaker with remote volume control in a hotel suite bathroom an easy task. The TX-J2 provides a balanced mono sum of the stereo unbalanced output of the television receiver. The ST-VCA3 adjusts audio level set using the D SERIES-RLC10K that is wall-mounted in the bathroom. The ST-PA18 power amplifier incorporates an on-board compressor/limiter and can provide up to 18 Watts RMS to power an 8 Ohm speaker. The full electronic package is small enough to easily be placed in a TV armoire. This example uses the fixed output level from the television receiver. The bathroom audio level is controlled by the -RLC10K remote control.

**Parts List**

Product	QTY
DS-RLC10K	1
ST-PA18	1
ST-VCA3	1
TX-J2	1
